Dear Sir or Madam:

The Research Services Office assists faculty, staff, and students of the University of Illinois at Urbana-Champaign in applying for support for research and other activities. We do this by maintaining a library of current literature about potential grant makers and other relevant pertinent information.

Thank you for reviewing and updating our description of the research support provided by the Council. Do you have any literature on the program's guidelines or on projects that have previously received support? This would aid our faculty in evaluating the appropriateness of their research project prior to applying for support from the Council.

Thank you for your timely response. Questions may be directed to the above office.
